Listen; go float; don't spend all your good weather fixing already. Just paint all the parts she can see. Me this summer? We do Montauk every year so that happens in July but my son is in the 11th grade so for the next two years we save money and visit colleges. This year is the state school circuit; Binghampton,Geneseo,Cornell, Albany; you know the drill.Then he plays Lacrosse in the summer in a league so that is almost every weekend travel to Jersey and Connecticut for tournements. Crazy.
