The last time we talked about this, September 19th 2005., the price of gas here in Croatia was $1,23-1,42 / l, or about $5 per gallon.Today, the price is $1,3-1,48 / l - not much larger (following $), but on the August 24. 2004. (I found on Web) - the prices were about $1,07-1,33.The rise of the price for diesel fuel (summer `84.- today) is 21,5%!
