The last time we talked about this, September 19th 2005., the price of gas here in Croatia was \$1,23-1,42 / l, or about \$5 per gallon. Today, the price is \$1,3-1,48 / l - not much larger (following \$), but on the August 24. 2004. (I found on Web) - the prices were about \$1,07-1,33. The rise of the price for diesel fuel (summer `84.- today) is 21,5%!
