The only industry that exceeds the profit's of the oil companies are the Banks. A little collusion maybe? Funny; everyone from here bought in the Florida's; it's so cheap they say. Now the homeowners insurance is increasing by 100% per year. That will soon equal the taxes we pay. I may have to stay put. I'll buy a dinghy."Hey; whats that bedsheet on a stick? Why... thats a sail; don't you know anything??""Weigh anchor.""40 lbs; Sir!"
