Well; the world trade talks end with no substantive accomplishments. Secretary Rice is in the Mideast babbling about a "Lasting Enduring Peace" but offering nothing to accomplish that.The ---- is in the US campaigning for Republican candidates and Cheney says the "Events in the Mid-east are exactly why we should keep the Republican's in charge at the white house."Like they say in Iraq about the so-called green zone in Baghdad; "Pay no attention to the man behind the curtain in the Emerald City."Two More Years....wheeew!
