I remember the 12c hamburger at Wetsons. The White Castle belly-bomber was a nickel. But then I used to go out with 5\$ in my pocket. 4 gals of gas= 1.00\$ Tequila nights shots were 25c so figure 8 shots and 4 beers in the evening was 3\$ and they bought back 4 which left a 1.00\$ tip. Then an omelete and coffee at the diner and watch the sunrise before you went to work so that was the 5\$. Then I borrowed a dollar for lunch next day. Those were the days; I think? Amazing I knew someone then who would actually lend me a dollar.
