How many instances might there be of tweaky audiophiles doing really stupid shit in search of audio nirvana? Gotta be a million of 'em!hahahahathats funny,cos i know people who do thatwhen asked how much theyd spend on their gear,they said 1000$ on pre amps10,000$ on speakers1,000 on interconnects..4,000$ atleast on cd playersi said : whats wrong with a well designed pre amp kit of 30$ valuemy 1600$ horn system will sound good,(jbl2370+DIY midrange horn + 12" pro midbass)1$ interconnectsmains cable as speaker wireand whats wrong with my discman! at diyaudio.com,theres a 100page thread on 'diy interconnects' they had it even drawn in autocad. i mean ,whats wrong with speakons! xlr!i need no snake oil to please myself:-)
