As fickle as AA moderation is, I'm thinking maybe there was just something funny about last night. I can't imagine them deleting posts you made in response to Magnetar. If anything, they let everything stand over there. Magnetar and Romy insult everyone, so if you nailed one of them back, it should have fit right in.Seems most of the posts made on AA's HUG these days are rude comments made by guys that are permanently banned here and anyplace else with any class at all. Even when someone posts something of substance there, the discussion is quickly sabotaged by insults from at least one of the usual vandals.
