I have been getting a lot of spam lately. Much of it is for Viagra, Cialis, and other stuff at a discount.1.  It is illegal to send spam2.  It is illegal to sell drugs without a prescriptionSo, anybody willing to break the law to send spam (even if they had a way to get around #2) is NOT to be trusted, right?So WHO WOULD BE INCREDIBLY STUPID ENOUGH TO SEND MONEY TO THESE PEOPLE????So, they even send you a little blue pill.  What are the chances that it is the real thing and not some Chinese rip-off!I just can't imagine how these spammers don't go out of business overnight, because nobody would buy anything from them.(Well, then again, anybody who would pay $100/foot or more for speaker cable...)
