D-Man; do you know what her condition was?And yes; if my loved one was in her condition I would shoot them in the face if that was the only way to end their suffering. And I would make them promise to do the same for me. If you love someone you would do whatever it took to end their suffering.As for many people existing without a brain; they just acquitted Micheal Jackson so you are correct there my friend.And that is the second time he has prevailed in court. There is not a prosecutor in the world who will touch that case again; so it seems he can now molest with impunity..Comere little boy.
