Thanks for the tip. I went there and it looks like the ting ting and dong dong musicstation. I remember seeing Harry Parch on an arts show as a teenager and wondering what all that was about. Was sort of interesting. BUT no one on the planet can tell me anything good about the likes of Philip Glass. What hooey. I miss the days of having Music From the Hearts of Space and Echoes on local public radio though. And for some reason my Firefox browser won't pick up Netscape (Spinner) radio. That plays what the Firesign Theater used to call "gas music from Jupiter" all day.
