I remember reading the Making Of Star Trek book and backon TOS (The Original Series) the costume designer wrote abouthow he worked in as much cheesecake as he could for thealien babes. Even the terra babes on the crew had short skirts. In the revival series' they took an absolutelyPuritan approach in the 80's. Then came Jeri Ryan asSeven Of Nine in ST-V (Star Trek Voyager.) Still, thereseems to be consistent pattern of keeping sex out of the program-- unlike the rest of tv and unlike ST-TOS. The future isn't what it used to be.
