I remember reading the Making Of Star Trek book and backon TOS (The Original Series) the costume designer wrote about how he worked in as much cheesecake as he could for the alien babes. Even the terra babes on the crew had short skirts. In the revival series' they took an absolutely Puritan approach in the 80's. Then came Jeri Ryan as Seven Of Nine in ST-V (Star Trek Voyager.) Still, there seems to be a consistent pattern of keeping sex out of the program-- unlike the rest of tv and unlike ST-TOS. The future isn't what it used to be.
