I am amazed that the people are so eager to make her an ogre. All these connections and conspiracies to somehow profit from the kids death. Amazing. Just because so many of the other greiving parents have been silenced they just cannot stand one who will not shut down and take her sons death like a true patriot; instead she has an opinion and states it; what a crime..it must be a conspiracy! She is trying to undermine the president. And those nasty people she associates with; she can't possibly give a shit about his death, It's a publicity stunt. She should shut up and go away.I don't mean to single anyone out by this rant but it's really incredible when you can't seek justice for a dead child.
