Subject: Let me explain the "my" in the title of my post above... Posted by Mr. Vinyl on Sat, 27 Aug 2005 16:36:24 GMT View Forum Message <> Reply to Message

I had originally titled my post "To my friend ManualBlock". I thought that might sound condescending so I tried to change it to "To ManualBlock'. I forgot and left the "my" in by mistake. So if the title looks weird that's why. Looking at it the way it appears looks condescending and I didn't mean that. Sorry about that.
