You mean they hide there during the day then come out at night? My turn to say come on; I repeat.They need mobility/Food/shelter/information/money and it all must be done in secret. That would indicate to me a large amount of help from the population. I sure as hell don't see them running across the desert from Syria everytime they need to do an operation.No; the people want our money and us out of there pure and simple.Even offering huge rewards has not gotten us any more information than we were able to find out ourselves. No; The people do not like their conquerors and want them gone.Vietnam all over again.
