"Thats why I don't do dueling websites. I don't have any reason to believe these people are real and honest; do I?"I get my news the same places you do. I make a statement and provide a reference, right or wrong. If I made a statemnt sans reference, you would call me on it; so, I just provided one before you asked.Besides, what makes you think these people are lying? Which statement made your BS meter turn red? Do you have refernces to dispell what you don't agree with?.....Colin
