seems like you need the correct amount of media play, spin, /public interes? Whos knows, right... Some things are important to a mass of people and some things are only important one or a handfull of persons. Maybe if Janet whiped out here tit or Britney flashed her brown eye in a flood zone, the public interest could change?Whats up with all the missing sex offendors? I just saw a thing on tv last night. Why not just tattoo sex offender on their forehead and mark them for life. nevermind the GPS tracking device.
