Didn`t try them yet, see "Group Build" for details. But, imagine (the right "Dungeon" theme) this:-factory price is ~$71 per pair of chokes, +$11 for some PTFE wire-postage (NL-CRO) +$24-bank provision $20 -taxes, customs ~$33-final postage expenses $5And we have:-goods (chokes and wire) = $82-taxes and postage = $82Then, if someone asks you where to work, manufacture or bureaucracy...and why you`re not that romantic anymore...
