Didn't try them yet, see "Group Build" for details. But, imagine (the right "Dungeon" theme) this:-factory price is ~\$71 per pair of chokes, +\$11 for some PTFE wire-postage (NL-CRO) +\$24-bank provision \$20 -taxes, customs ~\$33-final postage expenses \$5And we have:-goods (chokes and wire) = \$82-taxes and postage = \$82Then, if someone asks you where to work, manufacture or bureaucracy...and why you're not that romantic anymore...
