Damir:The text you have in quotes... woud you provide the message number and forum where it is stated as such? Raher, here is the text I find in 3 posts on the Group buid forum;:::E-Linear modified Peerless S265:::please reference post numbers 1763, 1764, and 1765.It is not and cannot be a modified S265 since we are the only ones who can legitimately build Peerless transformers. Now... go back and read the text about "passing off" and about "missappropiation"... both of which define illicit and deceptive business practices. msl
