if you could prove that, you would have done so a long time ago. All we have are your claims, and those of your goons. Big deal. And it is a lot better. I, and anybody else who wants one, can use it in an original circuit in ways David Sarser never anticipated. Big deal. It isn't anything you can't do as well. I invite you to do so. There is no con BTW. besides your vacuous head that is. cheers, Douglas
