Vinyl huh, what's that??? (kidding )I've started collecting vinyl I find here and there. At an estate sale I went to for giggles last week this guy had 6-700 albums, mostly classical. So I picked up a few of the compilation sets and some single albums I thought might be interesting, but I didn't see anything that I remembered as being a "must have". My wife thinks I'm nuts as I don't even have a preamp or TT yet. But I keep telling her that when I finally get one I'll have stuff to listen to!
