Yes; I use a Denon DL 103 in my Linn. At least I did until I tore the stylus off the body while adjusting. I probably will return to that one when the Empire wears out. Thats such a great cartridge. Too bad they don't make them anymore. My favorite cart; although it is really fat sounding is the Fidelity Research. That I am saving for some time in the future; probably after I have gone deaf with age. Try bonding the stylus on your Stanton; what the heck, why not?
