Isn't picking a single religion how most wars get started? why not leave religion in a church. Church can be a great thing. Organized religion's cause a lot of problems. Most likely more people have died over organized religion's than the number of people who have been saved. When I was in school we had a menorah and a christmas tree in the school. I thought everyone was happy? maybe not. I don't understand how we all survived the last 50 years being so politically incorrect, unsafe and abusive.
