Depends on the neighborhood really. 1400 foot in city areas are 60-80k 1800 foot in suburbs are 125-150k. nicer developments can be 2500 foot for 250-300. of course there is always a very nice place here and there 3500-5000 foot for 500k-1m. I like to go to [remax.com](#) to look at areas. Lots of time they list the taxes. [realtor.com](#) gets you anywhere in the country but never show the taxes.
