<http://www.cbsnews.com/stories/2007/02/26/world/main2514360.shtml> This the link to the CBS news program about the documentary James Cameron, is doing. Jesus bones found---<http://www.cbc.ca/world/story/2007/02/26/jesus-tomb.html?ref=rss> this one above is CBC news about the same documentary. Looks really interesting. From the part of it I saw he says the odds that this group of people with the names placed with the bodies, that the odds of them being a whole different set of Jesus, Mary, Magdalene, ect... are astronomical that by that alone is some sort of proof.... who knows will have to watch the entire documentary to form an opinion.
