Huge fan of Kate Bush. Looking back she is a little too much but back then I liked her stuff. Also let me state catgorically that Kate Bush is the most beautifull female on earth. Dark Green eyes and jet black hair; unbeleivable. She's a dancer with a dancers body and she writes the songs/plays the music and sings as well as produces. The only living proof there may be a God. Except she smokes cigarettes; the fatal flaw."Them Heavy People".I have one of the few copies of the white vinyl edition of "The Dreaming". Actually, who cares, it is the music that is good.
