Thank you very much Wayne, you are always very fast to answer!

So, the 4 Pi is better than the old Theater 4, and I see that it is also smaller than the Theater 4!

This is good for me... I must increase my WAF!

When I tried to mime to my wife the cabinet's dimensions of the Theater four, she said me:
"What? Would you put in "my" drawing-room two washing machines?"
So, I've had to accept many compromises to convince her...
But now, with this 4 Pi I could recover many points!

Wayne, would you send me the plans and the crossover design of the 4 Pi? Thanks

Best regards
