Subject: 2-pi tower. Posted by Wayne-o on Sat, 08 Aug 2009 05:44:56 GMT View Forum Message <> Reply to Message

Does the tower pipe rez. increase the spl in the 75-80 hz range ? I know you have said that you are using the port hemoholtz as the primary ,but the pipe freq. is still there. Thanks, I hope you can put these words together right. I dont have any software that models these type of cabinets.
