Would six Dayton PT2C-8 pair better to the the vifa's?

Have you heard them compared to your line of modified domes?

That list would be great.
My email is Grant.Gustavsen@gmail.com

Maybe the Tymphany TPY04WO4O0016 4" could substitute the vifa's. They're flange is only 4 3/16".

The goal is to keep these relatively inexpensive. Maybe later on in life I can go all out.
