Very good, I'll check into those two brands.

I do have a (new) cabinetmaker and he's applied laquer for me before. I've also taken delivery of some cabinets and tried my hand at finishing. And as a third option, there's another shop I've used that does nothing but apply finishes and restortation work.

Since these will be my cabinets, I can do the finish work myself but then again, might be better to leave it to the pros.
