Hi Psychoacoustic,

That is a fun mix of music you have listed.

The 15" woofer I will be using is the AE TD15M. I purchased a pair about 6 months ago. I knew I wanted a 15" 3-way using pro woofers and compression drivers, but did not know the exact design. Also, because I do not have measuring equipment, I would be hard for me to design a crossover from scratch. So after a lot of research, I think a modified Pi 4 would work well for me. And I can purchase the Pi 7 crossovers from Wayne.

Wayne, the high res pictures of the Pi 7 is helpful to see how you finished out the mid horn. Thanks.

Tom
