Subject: 4pi design plans Posted by vann_d on Sun, 28 Feb 2010 20:00:31 GMT View Forum Message <> Reply to Message

Hi Wayne,

I've been searching the ether for high sensitivity HT speakers to DIY. Others out there seem to be years behind your designs in terms of development. The 4pi seems like the one for me. Will you send me design plans please?

I was considering your kit. The drivers and horn are available from PE. What is the benefit of ordering the kit? Assembled crossovers?

AudioRoundTable.com

Thanks,
