I went to their home officers (Salina, KS) when back home over christmas. The owner (Chad Kassem) found out I had lived in Louisiana and bent over backwards to assist (he is a native New Orleanian).

I listened to test pressing of Nat King Cole and was BLOWN AWAY! The sound was beyond awsome - to bad modern recordings suck so bad compared to those from the 1950's.

If you like the blues, check out Chad's Blues label. Great recordings by great musicians.
