Fender not a preferred brand? That's the first I've ever heard anyone thinking of Fender as an off-brand. Maybe things have changed but it seems to me they have always been one of the favorites, like Marshall. I know now days there are lots of choices, and maybe Fender has fallen out of favor, but I can't imagine that. At any rate, you can't go wrong with a classic Fender amp, like a Twin Reverb or something like that.
