I've never seen Bill at any audio events or club meetings. We've invited him to our small gatherings, and I seem to recall that he was invited to MAF and some of the other trade shows as well. But I think he separates business and pleasure, and so he doesn't attend these sorts of events.I'm not sure if you're aware, but "Great Plains" and "Green Country" refer to this area, and it seems like about 10% of the businesses and associations here use some form of that in their names. It's kind of like "Orange County" or "Bay Area" or "Tri-State."
