Steve,

I plan on using the electronic crossover for a horn loaded 2-way in the future. I still have issues like getting a affordable preamp and finding a room to put them in.

Right now I have 2 systems in the living room that I'm working on at the moment. So the bi-amped system will most likely be upstairs with the corner horns (Jensen backloaded design).

Regards, Ron

PS: Tubino in Toldeo wants to borrow my crossover in the meantime for his 2-way system using TAD drivers.
