Yeah, this woofer really isn't happy with the smaller boxes. Unlike many of the JBL 22xx 18" woofers that can be used in smaller boxes, the Eminence Kilomax 18 peaks in the midbass and low bass drops off fast when used in a smaller box. If you need to go with a 6-8ft3 cabinet, I'd probably look for a different woofer. Maybe go with a 15" woofer instead.
