Subject: Re: Ear health Posted by rockhound on Tue, 27 Jul 2010 04:52:39 GMT View Forum Message <> Reply to Message

I've never had a problem with headphones. I use the large over the ear type that block out all or most outside noise so I don't have to crank it up to get great sound. I'd be more concerned with earphone types that don't block out noise so you have to turn up the volume just to hear your music over other noises.
