Times have changed, my friend, times have changed. Used to be when girls wait to be courted, too. Now it's the other way round. Only thing that hasn't changed yet is that girls get pregnant and boys don't.

Back to topic:

Personally, I do not think it's such a good idea to have both husband and wife sharing exactly the same hobbies. Variety is the spice of life, they say. I am not even sure that the man of the house would like his little woman messing around with his precious model trains or fine-tuned EQ, as the case might be.
