Dude I love that website. All and I mean ALL genres of music in one area. All the best music 24/7 a day. All with the best audio quality.

I like listening to the 70s station in the morning, a metal station at noon, followed by the blues or easy listening pop all the way till 6pm and then I switch to a meditation channel for about 30 mins to an hour. After which, its anybody's guess. Too many stations to check out. I do all the browsing at night. I've barely covered half of them stations.

LMAO. Anyway this is not an advertisement. Just wanted to spread the word and the lurrve.
