Subject: Re: Budget Speakers Posted by Skylar on Fri, 17 Sep 2010 13:06:01 GMT View Forum Message <> Reply to Message

If I was to go budget, I would just stick to something like Logitech or Razer.

I don't use PC speakers myself. Since I already have a Sony home theater, I just use digital optical from my PC to the receiver.

That was budget for me because I didn't need to purchase stand alone PC speakers at all.
