Wayne,

I'd appreciate it greatly if you can send me the plans for the pi3 and pi4.

Also, what is it about the JBL 2226 that makes it so good? Is it only marginally better than its competitors, or head and shoulders above? What about a 'best bang for the buck' equivalent to it?

I'm very new to this, and there are so many specs to speakers that it makes ones head spin!

Thanks very much!
