Really, it'd depend on the price. Sure, the PS3 can play Blu-Ray discs but it is also $100-200 dollars cheaper than the PS3. If you're on a budget and don't want to spend that extra money, I would just go with a Blu-Ray player for now. Then again, if you like to game, the PS3 might be good to get, especially this season when there are more sales.
