Agreed about the bass player. We had a bass player, drummer (double bass rig with 4 toms, 2 floor toms, rototoms, the whole nine yards--he's my brother!!!), two guitarists, and a singer practicing in a 15" x 15' room. You can imagine!!! Twice a week, 4 hours at a shot, for 5 years, then gigs most every Sat. night. Ugggg.... I do miss it though. We changed guitarists and singer the last year and worked up about 20 originals to record when at the last minute 3 of us got transferred in our day jobs. That really bit.
