audioaudio90 wrote on Sun, 12 December 2010 10:01 What do you mean? You don't have a TV with speakers, or do you get your equipment for free somehow?

I haven't spent tons on home theater, but it was a decent amount.

I was joking It was probably read as being a little harsh, but I don't mean anything by it.

But yeah, whatever comes with the car is fine with me. I pretty much avoid listening to music outside of my stereo setup. And I normally get TV sets for free since everyone is always getting rid of an old CRT one.
