The Houston Audio Society's Saturday, January 8th meeting will be at my house in the Northwest suburbs starting at 10:00 am. The meeting ends at noon, and we will meet for lunch at a local restaurant afterward. The meeting topic will be Parasound's entry-level stereo preamplifier and amplifier, which we will hear courtesy of Epic Audio of Houston. We will also discuss other Parasound products. <http://www.epicaudiovideo.com/>

See our Houston Audio Society web page for meeting information and directions. Everybody is invited. RSVP's are not required.
