Subject: Re: Video Game Chairs/Rockers- enhance gaming with audio? Posted by brian21 on Fri, 21 Jan 2011 00:04:13 GMT View Forum Message <> Reply to Message

My best friend has one of these, and if you're really into video games I'd say they're worth buying. The one he bought has a speaker in the headrest, and the sound quality's actually pretty decent in it. Beyond that, it's really comfortable to sit in too.
