Subject: Port length for 2pi studio
Posted by justphil on Mon, 24 Jan 2011 18:42:49 GMT

I'm at work and away from my plans. I found a VERY sturdy 2" cardboard roll for my port. I was hoping to cut it and install it tonight but don't have the sizing. I feel pretty confident it was 1 7/8 but wanted to make sure.
Thanks,
Phil
